The Honorable Julius Genachowski
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: MB Docket No. 10-56

Dear Chairman Genachowski,

As a community service oriented program dating back to 1939, Back of the Yards Neighborhood Council (BYNC) knows how important partnerships are when it comes to making a difference in our communities.

In recent years, BYNC has been fortunate enough to develop a partnership with Comcast Corporation. This relationship has assisted us in living up to our mission of enhancing the general welfare of our residents, organizations and businesses.

BYNC has received support from Comcast to strengthen and more broadly develop our Youth Council to instill positive, community-oriented values in our teens. We also partnered with Comcast on its annual Comcast Cares Day of service last year. We hope this will become an annual tradition.

Comcast's commitment to local communities and diversity issues has made our partnership a natural fit and it has been very rewarding for us to work alongside them.

As you consider the proposed transaction between Comcast and NBC Universal, please remember the important support Comcast has provided us and the communities we serve.

Sincerely,

Craig Chico
President/CEO
Back of the Yards Neighborhood Council
